ABOUT ME

I am a frontend developer with 1+ year of experience in the field. I strive for constant professional growth and learning. Ability to successfully integrate into a team and find a common language with people. I`m ready for change, able to solve problems independently and willing to contribute to the creation of web applications.

I have solid knowledge HTML, CSS, SCSS preprocessor, also have experience working with Bootstrap. I write code in TypeScript. Currently, working with the React library and Redux.

I use the React component library - Material UI to create user interfaces and am well versed in UI/UX design.

Good understanding of the HTTP protocol and have practical experience working with a server using REST API principles. Also familiar with unit testing using Jest.

I use additional tools such as: version control system - GIT, ESLint for well-formatted code and the project management system - Jira.

SKILLS

Hard-skills

- HTML / CSS / SCSS
- Bootstrap / Material UI
- JavaScript / TypeScript
- React / Redux
- REST API / GIT / JEST

Soft-skills

- Clean code
- Teamwork
- Time management
