ABOUT ME

I'm a front-end developer with 1.5 + years of experience. I strive for professional growth and learning, can easily integrate into a new team and connect with people, able to solve problems independently.

I have a strong knowledge of HTML, CSS, SCSS and experience with Bootstrap. Currently, working with React, TypeScript, Redux, use Material UI and Ant Design for creating user interfaces.

Good understanding of the HTTP protocol, client-server architecture, CRUD operations, UI/UX design and experience working with server using REST API principles.

During development, I use additional tools such as version control system GIT, ESLint and Prettier for well-formatted code, and project management systems like Jira and Trello.
