## ABOUT ME

I have been working in the IT field for over a year and specialize in front-end development. I have solid knowledge HTML, CSS and a proficient understanding of the SCSS preprocessor, also have experience working with the CSS framework - Bootstrap.

I write code in JavaScript and TypeScript, as TS adds static typing, which helps in the application development stage.

Currently, working with the React library, and for state management, I chose Redux, as they are considered one of the best combinations for Single Page Applications at the moment.

I use the React component library - Material UI to create user interfaces and am well versed in UI/UX design.

Good understanding of the HTTP protocol and have practical experience working with a server using REST API principles. I am also familiar with unit testing using Jest.

In my work, I use additional tools such as: version control system - GIT, ESLint for higher-quality and well-formatted code and the project management system - Jira for task planning and execution.

## SKILLS

### Hard-skills

- HTML / CSS / SCSS
- Bootstrap / Material UI
- JavaScript / TypeScript
- React / Redux
- REST API / GIT / JEST

### Soft-skills

- Clean code
- Teamwork
- Time management
- Stress resistance
- Accurate

## EDUCATION

- 2023 - ... **IT-Incubator**
  - Web application development
- 2012 - 2015 **High School**  
10r. - 12r. class
  - Mathematical direction
  - Estonian language
  - English language
- 2003 - 2012 **Primary School**  
1. - 9. class
  - Basic education in Russian, as well as additional Estonian and English

## WORK EXPERIENCE

My first project on HTML and CSS with responsive design.

- [ilyaosw.github.io/Strategix](https://ilyaosw.github.io/Strategix)

Developed a personal website using Bootstrap, SCSS, React, and TypeScript.

- [ilyaosw.github.io/IljaOssipov](https://ilyaosw.github.io/IljaOssipov)

At the time working on a pet-project in which I use TypeScript, React, Redux, and the Material UI component library.
