## ABOUT ME

**Front-end developer with 2+ years of experience** developing web applications using modern JavaScript technologies. A quick learner and team player, able to adapt to new tools and methodologies.

Good understanding of the HTTP protocol, client-server architecture, CRUD operations, UI/UX design and experience working with server using REST API principles.

During development, I use additional tools such as version control systems like GIT, ESLint, and Prettier for well-formatted code, as well as project management systems like Jira.

## SKILLS

### Hard skills

- HTML / CSS / SCSS / CSS Modules / Styled Components
- Bootstrap / Material UI / Ant Design / Tailwind
- JavaScript / TypeScript
- React / Vue.js / Redux
- Firebase / PostgreSQL
- Webpack / Vite

### Additional skills

- REST API
- Jira / Trello
- GIT
- Jest
- Canva / Figma
- React DevTools
- CI/CD

## EDUCATION

2024 - ...

### SELF-EDUCATION IN FRONTEND DEVELOPMENT

- Working with popular UI libraries
- Creating user interfaces with React and Vue.js
- Using Firebase for authentication and DB management
- Basics of working with PostgreSQL

2023 - 2024 **IT-INCUBATOR**

- Web application development
- Refactoring legacy code
- Writing unit tests using Jest
- Adding typing to the application using TypeScript

## WORK EXPERIENCE

Development of a web application that allows registered users to track their workout progress in the gym, set personal fitness goals, monitor performance over time, and access detailed statistics and training history.

- Design creation for the web and mobile versions
- JSON formation for the database
- Core functionality development
- Typing the application in TypeScript
- Application optimization and refactoring
- Website deployment and domain configuration
