ABOUT ME

I'm a front-end developer with 2+ years of experience. I strive for professional growth and learning, can easily integrate into a new team and connect with people, able to solve problems independently.

I have a strong knowledge of HTML, CSS and JavaScript. Currently, working with React, TypeScript, Redux, use Material UI and Ant Design for creating user interfaces.

Good understanding of the HTTP protocol, client-server architecture, CRUD operations, UI/UX design and experience working with server using REST API principles.

During development, I use additional tools such as version control system GIT, ESLint and Prettier for well-formatted code, and project management systems like Jira or Trello.

SKILLS

Hard skills
- HTML / CSS / SCSS
- Bootstrap / Material UI / Ant Design
- JavaScript / TypeScript
- React / Redux
- Firebase

Additional skills
- REST API
- Jira / Trello
- GIT
- Jest
- Canva / Figma

EDUCATION

2023 - ...   **IT-Incubator**
- Web application development
- Refactoring legacy code
- Writing unit tests using Jest
- Adding typing to the application using TypeScript

2012 - 2015   **High School**
- Mathematical direction
- Estonian language
- English language

WORK EXPERIENCE

Development of a web application that allows registered users to track their workout progress in the gym, set personal fitness goals, monitor performance over time, and access detailed statistics and training history.

- Design creation for the web and mobile versions
- Component-based layout using React
- JSON formation for the database
- Core functionality development
- Typing the application in TypeScript
- Application optimization and refactoring
- Website deployment and domain configuration
